**Asleep When Fire Breaks Out.
Caught By Falling Timbers.
Others Fatally Hurt.**

New York, N. Y., Aug. 5.—Four children were burned to death here early today in a fire which swept a tenement house in Brooklyn. Two others were probably fatally burned and five other persons sustained lesser injuries.

The dead are the children of Julio Corsine. Their names are William, aged 5; Edna, aged 10, and Victoria, aged 14. All were asleep at the time and unaware of the fire until the roof caved in, letting a mass of burning timbers fall upon them. Corsine and his wife and two other children escaped down a fire escape.

In another part of the burning building Andrew Taylor and Rose Fitzpatrick were probably fatally burned. Mrs. Catharine Taylor, age 39, and her four children all were painfully burned. Many were carried to safety.

Spectacular Rescues.
The blaze started between the second and third floors of a five story building about 3 o'clock this morning. When firemen arrived tenants were leaning far out of windows screaming for help. A big crowd quickly gathered and watched the spectacular rescues of inmates of the burning structure.

PEACE IN IRELAND NOW DEPENDS ON ULSTER'S MOVE

**De Valera's Call For A Session
Of Irish Parliament Arouses
Ire Of Ulsterites. Demand
Own Representative.**

By ED. L. KEENE
(United Press Correspondent.)
London, Eng., Aug. 5.—Peace or continued warfare in Ireland depends today on Ulster. The six counties of the north were still determined not to yield to "President" De Valera's demand that he be permitted to represent all Ireland at the peace conference and stood alone in the way of Sinn Fein acceptance of British peace proposals.

Ulster's "hitch" developed when peace seemed virtually assured. De Valera's call for a meeting of the Sinn Fein parliament on August 16 aroused the keenest speculation here. The general belief was the President and his cabinet saw a way to continue negotiations with Lloyd George but desired the Parliament's approval.

There were reports that De Valera had heard that Ulster had received his proposition so favorably that he desired to lay it before Parliament. This was denied. Those familiar with Ulster's stand asserted Premier James Craig was determined that his party in Ireland have equal voice with the Sinn Fein in the final peace settlement.

The bandits were concealed in the bushes along the road and slowed down the paymaster's car by rolling stones into the road. With leveled revolvers they jumped out suddenly before the guards could life their guns, disarmed them, took the paymaster's bag of currency, and cutting the wiring system of the paymaster's car, made their escape in a waiting automobile.

HARDING SPEAKS BEFORE AUDIENCE OF WOUNDED VETS

**Hundreds Of Disabled Ex-
Service Men At Gorham
Hospital Hear President's
Address.**

By RAYMOND CLAPPER
United Press Correspondent
Lancaster, N. H., Aug. 5.—President Harding scratched a day from his vacation calendar today when he motored to Gorham, N. H., and gave a word of cheer to several hundred disabled ex-service men at the government hospital at Gorham. The President motored there shortly after breakfast and expected to get in a game of golf after speaking at the hospital.

He plans to leave Saturday for Portland, Me., where he will take the Mayflower, expecting to reach Washington Tuesday.

Last Vacation Trip

It was learned today that President Harding plans no other vacation this summer except an occasional week end trip. He is utilizing the present trip to come in contact with the people and also to lay the foundation for sympathetic public sentiment in connection with the approaching Disarmament Conference. Ex-Governor James M. Cox, of Ohio, is vacationing at Bethlehem, N. H., about 18 miles away, but President Harding displayed little interest when informed of this today.

Mine Workers Officials Refuses Joint Confab To Discuss Wage Cut

**President Brophy Replies To Central Coal Association Request With Flat Denial To Discuss
Any Wage Reductions Until Wage Agreement
Expires Next Month. Willing To Talk Over
Other Points In Coal Business.**

The latest step in the "war of words" between the Central Coal Association and President John Brophy, of United Mine Workers District No. 2, of Clearfield, was recorded Thursday when he mine worker official indicted another letter to G. Webb Shillingford, president of the Central Coal Association. The letter was in answer to the decision of the operators recently arrived in which they came out flat footed and announced they sought a joint conference with the miners for the purpose of talking over wage reductions and thus alleviating what they termed distressing conditions in the Central Pennsylvania coal fields.

Pres. Brophy Says Nothing Doing.

However, the Mine Workers' official evidently did not believe he situation as serious as painted by the operators, for in his reply sent out Thursday he reiterates the intention of holding onto present wage scales and agreements until the contract expires on March 31, 1921.

However, he states in his reply that the miners would welcome a joint meeting for the purpose of discussing questions, other than wage reductions, that would be to the mutual advantage of the miners and operators. He thus leaves the next move up to the operators, who will either have to stick to their guns or back water.

**BODY OF GEORGE SIMCOX,
KILLED IN FRANCE, WILL
BE GIVEN MILITARY
BURIAL SUNDAY**

The body of George Simcox killed in France on September 8, 1918, and which reached Hoboken on July 25th, arrived in Clearfield Wednesday morning and will be buried from the Court House, Clearfield, in Sunday afternoon.

The deceased soldier was first with Boal's machine gun troop at the border, returning in 1917. Later he was transferred to Co. E, 111th Infantry 28th Division, and was in action with the regiment when killed.

George Simcox was born at Forge Run Centre county on August 14, 1898. Besides the parents the following brothers and sisters also survive: Mrs. George S. Long, of Locust street, Phillipsburg and Frank, Osha, Viola, Luellen, Mary, Althea and Alvin, all at home.

The following letter was received by Mrs. Simcox from the young soldier's commanding officer, explaining the circumstances surrounding his passing from life.

France, Nov. 6, 1918.

Mrs. Simcox:
As Commanding Officer of Co. E, I feel it my duty to write to you and tell you of the fate of your son George. On or about September 15, 1918 we came out of the battle of Fesinettes. We came back for a rest. After coming 10 or 12 kilometers, we were placed along the side of a hill for the night; of course all men dug in so that shells being thrown over by the Germans could not harm them. It was very sandy soil, and also raining all night. Right in back of us came a Battery of 6 in guns, firing toward the German lines. About 10 p. m. that evening, one of the men that was very near where your son was,

PRESIDENT BROPHY'S REPLY

In his reply to the latest letter from President Shillingford, Mr. Brophy said:

August 4, 1921
Mr. G. Webb Shillingford, Pres.
Central Coal Association
Altoona, Pa.
Dear Sir:
Your letter of July 8th asking for a joint conference for the purpose of considering a wage reduction was brought before our Executive Board at its meeting today.

The United Mine Workers of America are opposed to any wage reduction and their position was very clearly set forth by International President, John L. Lewis, in his statement issued in the early part of May so wit:
"There will be no reduction of wages in the organized sections of the coal mining industry. The mine workers are now working under a scale of wages fixed by the United States Bituminous Coal Commission created by the President, and which functioned under governmental authority. These wage schedules were written into an agreement between miners and operators which will not terminate until March 31, 1922. There can be no modification or abrogation of this agreement in any coal producing district without disturbing the integrity of the contract throughout the entire nation. The United Mine Workers will resist any attempt to disturb the equanimity of its present contractual relations."

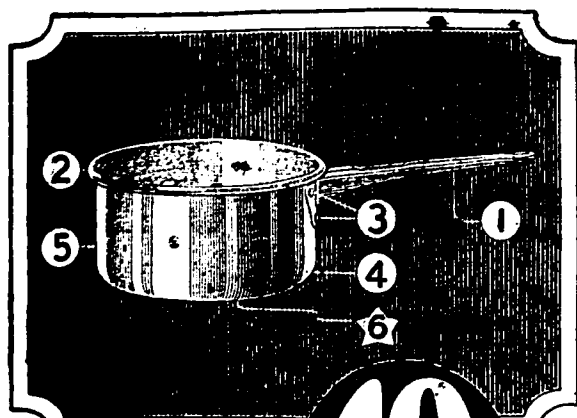

District No. 2 is fully in accord with international Union on this point as has been stated to you in our letter of May 23, 1921.

The International Union is a party to the present contract with the Bituminous Coal Operators' Association of Central Pennsylvania, and the International officers are signatories hereto. The position of the international on wage reduction would preclude any modification of the contract on the part of District No. 2.

Furthermore, Rule 26, of the present joint agreement which reads: "No agreement shall be made by the United Mine Workers of America of District No. 2 with any operator not a member of the Association on a lower scale of wages, or which shall provide for a reduction, under any circumstances during the term thereof, which shall not be less than two years." Would also preclude any modification making for a wage reduction.

Knowing from this and previous letters from us that we intend that the present scale agreement with the Bituminous Coal Operators' Association of Central Pennsylvania shall stand until it expires on March 31, 1922, it seems that a conference with your organization is entirely futile. Our position is that he have already said what he has to say. No more there are questions.

Secretary of the Treasury Andy Overholt Mellon says that instead of lowering war revenue taxes it will be necessary for the American people to pay into the government treasury an excess of almost three hundred millions more in taxes than they are dragging out of the people under present levies. The wages of laborers are being fixed all over the country at 25 cents per hour and as the tax revisionists are hard at work shifting the burden from the shoulders of big business, how in heck are we going to dig up the coin for Andy

There were four bouts on the program but the hardest blow of the evening was landed by the Manager of one of the defeated gladiators, who angered by the comments of one of the fans as he guided his woozled scrapper to the showers, walked over and landed a swing flush on the other fellows' beezers, turning the aforesaid beezers aside at an angle of 45 degrees from its original prominent supposed to be permanent location. It was by far the best punch of the evening.

WHO WANTS TO BE RICH

The way to get rich is to trust nobody, befriend none, keep all you get stint yourself and everything that belongs to you, and be the friend of no man, and have no man a friend of yours, heap up interest cent upon cent to be mean, miserable and despised, some twenty or thirty years and riches will come to you as sure as disease, disappointment and death. And when pretty nearly enough wealth has been accumulated by a disregard of the charities of the human heart and at the expense of every enjoyment, death will finish the work, the heirs dance and fight over what you have left and the spirit goes—where? By all means get rich. It will pay—the devil.

WOULDN'T THAT JAR YOU

Tracy Gillis, a rancher from the wilds of Western Nebraska, has just seen his first day of civilized life here. For thirty-three years his father had kept him in ignorance of the world. He had not seen a woman since he was a baby in arms until he came to Omaha recently.

According to Gillis, his father, George Gillis, married an actress in Chicago thirty-four years ago. The marriage was not a happy one, and

after the baby was born the father expressed the belief that he took the child and penetrated the New England wilderness.

He had no intention, he said, of "Will I marry? I haven't been leaving the paths of civilization and he said, "I never knew but prayer his father had taught him, was such a thing."

By Carrier 12 cents per Week Payable to Carrier

Entered at Post Office at Clearfield, Pa., as second class matter.

Another large steel concern recently announced its third wage reduction since January 1st. The latest slash places the wages of the common laborer at 25 cents an hour, or, under present working conditions, at about \$2.50 a day. Will the learned student of economics, who has been trying to convince the world the cost of living has been stabilized, kindly come forward with a water-tight explanation of how those laborers are going to live and support families on \$17.50 a week?

Of course, it is easy to say there are thousands living and supporting families who are out of work, and all that, but those families are running into debt daily. The man who works with the pick and shovel must have something to look forward to if he is to remain contented. Ordinarily this class of workmen are easily contented with their lot. They look not to the morrow, but are concerned with having their bread and butter and a roof over their heads today. If the prospect of not only being unable to supply their daily bread today, but of borrowing from tomorrow to pay today's debt, confronts them very long, who can say they will stay contented? Industrial unrest must be stifled. It has been the downfall of more than one nation. It gives the I. W. W. and other "Wobbly" organizations the chance for which they are looking. It gives them the opportunity to hold out glowing promises for the future which they know well they can never redeem, but which work to their advantage in the present.

New York's new movie censors have finally loaded their guns and gone into action. It might not be so worse if this State's Prohibition squad picked up their ammunition belts and followed like suit. At least, they might go so far as to put an official sampler on the job so as to insure that bootleggers' customers would get a better brand of "licker" for their money.

CARELESS TOURISTS START DESTRUCTIVE FOREST FIRES

Because of the war, Germany lost about 21,547,520 acres of land exclusive of plebiscites. This was undoubtedly a serious national misfortune to Germany. The United States, during the period 1916-1920, inclusive, burned up 56,488,307 acres of our forested area—over 2 1-2 times as much as Germany's entire loss—an area greater than New York and Pennsylvania combined, or of Minnesota, Kansas, Idaho, or Utah.

While it is impossible to trace the origin of all forest fires, the records of the Forest Service of the United States Department of Agriculture show that a large number originate through the carelessness of happy-go-lucky tourists. The Forest Service is anxious to encourage the use of the National Forests as recreation grounds. It co-operates with plans for building fine roads through the forests, and establishes numerous free camping grounds, where shelter, water, and firewood may be obtained. Many of these camps are located on main automobile highways and are easily reached. Some States provide tourist guide maps to the forest and camp sites. About 5,000,000 people, it is estimated, use the forests each year during the vacation season. At Eagle Camp Ground on the Columbia River Highway in the Oregon National Forest, 132,000 tourists registered last year.

Some of the campers, however, do not seem to appreciate the pleasures and privileges afforded to the touring public. They disfigure the scenery with rubbish and filth, they disregard game laws and pollute streams, but their worst and most frequently recurring offense, according to forest officers, is the starting of destructive forest fires by carelessness either with camp fires or with smoking.

A lighted cigarette thrown into dry leaves or needles may start a fire that will spread for miles. A camp fire not fully extinguished may be the means of destroying valuable timber which has taken hundreds of years to reach maturity. The reports of forest rangers are filled with dramatic accounts of the work involved in controlling such fires, and also in detecting and bringing the culprits before a judge after following the very slight clues obtainable in a deserted camp site. Sometimes an old bottle or a pocket handkerchief will reveal the original possessor who did not put out his fire. Sometimes a particular make of automobile tire can be traced for miles and the careless camper brought to justice.

No fines, however, on the part of the local magistrate, will restore the burned area. While forest rangers are vigilant and alert to catch carelessness and prevent incipient fires, the real need, the foresters say, is for the development of more conscience on the part of the public which uses the National Forests.

Suffering of a Quarter Century Quickly Relieved by Nerv-Worth

West Virginian Tells Interesting Story.

"I suffered 25 years with stomach trouble and nervousness," said L. F. Ferguson, Route 2, Clarksburg, W. Va. in a letter written some time ago, and he continues, "I had pains in my stomach, back and side, and my circulation was poor. I got no sleep and was as tired in the morning when I got up as when I went to bed. I became restless and despondent. I had doctored right smart and spent lots of money, but my food would not digest and I was always full of gases. Since taking Nerv-Worth, my condition is a great deal better in every way. I am feeling good, sleeping fine, my food digests, and the gases are gone. My whole general condition is much improved and I certainly recommend Nerv-Worth to my friends." If it's stomach trouble you have, the above statement proves to you that Nerv-Worth is the medicine you want. Remember if your first bottle is not satisfactory, your druggist is authorized to refund your money. Sold by all leading druggists everywhere.

TERRIERS CLEAN UP BROOKVILLE IN SLOW GAME

Visitors Powerless Before Breckenridge's Slants. Locals Hammer The Pill For 15 Runs.

The Clearfield Terriers hammered real terror into the hearts of Lefty Hill and his Brookville compatriots at the driving park yesterday afternoon when they took the Jefferson county boys into camp to the tune of 15 to 1 in a game marked by the heaviest slugging seen on the local grounds this year.

Lefty Hill Again Dumped. This happy process of bumping Lefty Hill is getting to be a habit with our baseball battlers and the smooth-working portlander is about ready to lay off our own for good and all. However no pitcher in the business could have held the Terriers yesterday. They were in there to hit that old apple, and hit 'er they did.

Joe Harris Real Big Show. Joe Harris, first baseman extraordinary and demon swatsmith was the star actor in the "last fall of Lefty." Joe was at his best with the "war club," and that—believe me, kid—is some best. The log of his operations for the day will be enough to show you what an uncomfortable afternoon it was for poor Lefty and his assistants. Joe was up only five times. On his first appearance, in round one, he almost took an arm off Lefty, the ball bouncing out into right field for a single. He came up again in the third and bounced the ball up against the fence in right center and was perching on third when the ball got back into the diamond. In the fifth he sacrificed and in the seventh got two turns of the wheel and landed the ball both times up against the fence on the far side of the track in deep center. The husky first sacker also looked like a million dollars around first during the afternoon.

Everybody Hit the Ball. While Harris was hitting everything that got within his range of vision, the other boys with the exception of Zerfuh and Breckenridge were not idle at the bat. Old reliable Seigfried came across with two doubles and a single, while Anderson poled out three nifty singles. Hoffman, Kane and Yerkes each garnered a single and a double.

Steve Yerkes At Third. Steve Yerkes, the Federal League star, played his initial game at third

for the Terriers and he'll do, take it from us. We have a real ball team now, watch our smoke.

Breckenridge Fine Pitcher. Manager Hoffman selected "Kid" Breckenridge, who is making his first appearance here, to do the pitching for the locals and "the kid" was there both ways from the middle. He held the visiting sluggers to four singles, allowing but a single hit after the second inning. He should have had a shutout to his credit, but on a delayed steal a high throw to the plate got away from Hopper and Brookville's lone run got across.

We refuse to mention that seventh inning or say another word about the slaughter.

DUGAN RETURNS TO PHILADELPHIA TEAM

Philadelphia, Aug. 5.—Joe Dugan reappeared at third base yesterday in the Philadelphia American League team's game against St. Louis.

Dugan, who disappeared last Friday, later wrote Manager Connie Mack from New York asking to be transferred to some other club on the ground that he did not like Philadelphia nor did Philadelphia fans like him. Manager Mack fined him, gave him a talking to and put him back in his former position.

Cut Down Gas Bills. Comparatively few people realize that the gas bills may be cut down materially by exercising care in lighting the gas. Hold a lighted match over the burner, then very slowly turn on the gas. If the gas is turned on full force before the match is applied, a slight explosion occurs which affects the meter and sends it forward rapidly.

NEWS OF OUR NEIGHBORS CURWENSVILLE

Miss Lois Zinn, of Newport, Pa., was a week end guest in the home of Rev. and Mrs. J. C. Collins, South Walnut street.

The Grass Flat ball team were here yesterday with bells on both feet. They defeated the American Legion team on athletic grounds by a score of 2 to 3.

Chas. Collins, who has been playing ball with the Spring Grove ball team is expected home on Saturday and will remain over Sabbath with his parents.

Mrs. Frank L. Arnold spent a portion of this week with friends and acquaintances in Philipsburg.

Curwensville sent a large delegation of ball fans to Clearfield yesterday to witness the fast game.

Mr. Harry B. Draucker and wife, of Philadelphia, are spending the week with relatives and friends in Curwensville. Mrs. Draucker is a Philadelphia lady but Harry is a native son of this old burg and has been in the city for a number of years, but manages to get up in the mountains every few years where he always finds a warm welcome awaiting him by his countless number of boyhood friends. This being Mrs. Draucker's first visit to Cur-

wensville she also came in for a hearty handshake and a genuine welcome which warmed her heart greatly toward us rough and woolly mountaineers.

Borough Council, among other things talked about and proposed at its recent meeting, was a proposition to present before the voters of this borough a chance to vote on another bond issue in order to meet current expenses in repaving the stretch of borough street from the Park House corner to the bridge at foot of Filbert street and thence along Susquehanna avenue to the borough line several hundred feet beyond the Pee Wee's Nest bridge.

This borough is most woefully in debt now on both the school and road funds, and a bond issue seems to be the only way clear by which a sufficient amount of money can be realized in order that the repaving can be done. There seems to be considerable growing already relative to the high rate of taxation in this borough, and from investigation the property owners do not seem in favor of another bond issue. The amount of money to be derived from road and street taxation, if every cent of it is collected, for the year 1921, has already been spent and nothing remains in the fund by which the work now being done can be liquidated unless there is another bond issue. We are well aware of the fact that the tax burden for the upkeep of this borough is becoming heavier year by year, when in truth it ought to decrease. It has been said that a city or town never becomes prosperous until a heavy bonded indebtedness is held against it. If this be so then Curwensville people should not become the least discouraged. The question of a bond issue will be placed before the people to be voted upon at the coming primary election, so there is ample time yet to discuss the question pro and con, and decide by vote just what is best to be done in the mat-

ter. Every voter should give this serious thought.

Mrs. William Twigg, Sr., is at present an inmate at the McGirk sanitarium where she is receiving medical treatment.

Mr. Wm. Norris, once a resident of Curwensville, now a prosperous farmer in Penn township, was a town business visitor yesterday. He said he had no complaint to make for the manner in which his crops turned out this year, as everything was blooming full even the spring on the hill.

Janitor Lansberry cut a severe gash in his left hand while engaged in some work around the High School building yesterday. He is engaged now in putting the buildings in a cleanly and proper condition for the starting of the schools.

PRINCE OF WALES A HARD WORKER

**Spends His Summer On
The Move. Day's Pro-
gram Keeps Him On
The Jump.**

London, Aug. 5.—(United Press.)—The Prince of Wales is qualifying for the honor of the world's hardest worker.

With a two month' drought and a burning sun to make the strenuous life particularly unpleasant, the Prince is spending his summer on the move.

For example on one day he went to Dover early in the morning to meet the King and Queen of Belgium, returned with them to London for a state luncheon at Buckingham Palace, played polo in the late afternoon, left at night for a northern English county, and leaving the train about 1 a. m., motored miles to Lord Derby's house, where he was a guest during a short tour.

A "tour" consists in being seen being photographed, at cattle shows, dog shows, baby shows, at garden parties, municipal functions and cricket games. He moves almost on the run from early morning until late at night and must be always smiling.

Osceola downed Philipsburg at Osceola yesterday by a 10 to 3 score. The Allegheny Steelers got into action for the first time since signing up with Moshannon vein coal barons, and are said to have showed real class.

SHE DREADED TO SEE NIGHT COME

**Erie Young Woman Was So
Nervous She Couldn't Sleep.
Tanlac Ends Troubles**

"Tanlac is just the medicine I needed, for since taking it I feel better than I have in many months," said Miss Jeannette Zwicki, 536 East 23rd street, Erie, Pa.

"I was in a wretched condition from the effects of nervousness and general debility, from which I had suffered for eighteen months. My stomach was in such a bad condition I was almost afraid to eat on account of the misery which followed. My nerves were all unstrung and I was so restless I actually dreaded for night to come, as I could not sleep and would roll and toss almost all night. In the mornings I was just as tired as on retiring at night.

"I am familiar with drugs and preparations, being a pharmacist, yet I did not know what I needed, but I had heard our customers talking about the good Tanlac did them, so I decided to try it and began improving after taking the first few doses. I now digest my food properly, sleep soundly and feel benefited in every way. It seems the longer I take Tanlac the better I feel. I don't believe it has an equal."

JOSEPH M. CROUCH

Word was received today that Joseph M. Crouch, a prominent business man of Clarksburg, W. Va., had died on the night of August 3rd as the result of an attack of apoplexy. His remains are being shipped to Curwensville, his former home for burial on Sunday at 10 o'clock a. m.

Mr. Crouch was a son of the late Dr. D. O. Crouch, one of the pioneer surgeons and physicians of the county who was also in the service of his country as surgeon of the Old Butkail Regiment during the war of the Rebellion. His mother, Harriet Hartshorne Crouch, (deceased) was well and favorably known throughout the county.

Two sisters survive, Misses Elizabeth and Harriet Crouch, residing in Tyrone, Pa. One brother, John, who during his lifetime was superintendent for the Elk Tanning Company, died several years ago.

Mr. Crouch was a man 52 years of age, possessing remarkable traits of character and a disposition that endeared him to the hearts of many. He was intensely public spirited and a live business man, entering into all of the bigger projects with untiring energy and forcefulness. During the world war he enlisted as one of the Y. M. C. A. officers in France. In Masonic circles he was an active member of all its branches and had attained the high honor and distinction of being a thirty-third degree Mason. He was also an active Presbyterian church member. During the early years of his life he resided with the family at Curwensville later engaging in business in the city of Chicago for a number of years. He removed to Clarksburg some twenty years ago where he engaged in a wholesale business with marked success.

The remains will arrive in Cur-

Chicago, Aug. 5.—Johnny Evers, manager of the Chicago Cubs, was yesterday supplanted by William Killefer, veteran catcher of the club. The decision was reached at a meeting of the board of directors

Wednesday, but the scrappy little leader was so ill at his home that official announcement was not made until he had at least partially recovered.

So Johnny Evers, one of the best known figures in the big leagues, passes at least temporarily, from the picture.

Ridgway, Pa., Aug. 5.—The Elcos whitewashed Clarion here yesterday to the tune of 3 to 0. Big Bill Ritter did the hurling for the Elcos while Rafferty worked on the mound for Clarion.
